

Wonderful Whales

Week 30
Morning Work

A summary tells
the most important
parts of a story. #

For each paragraph, fill in the bubble next to
the sentence that tells the most important part.

Name _____

- 1 The largest animal on Earth is the blue whale. It can grow up to 100 feet long and weigh more than 200 tons. Whales, for the most part, are enormous creatures. However, some kinds only grow to be 10 to 15 feet long.

- The blue whale is the largest animal.
- Most whales are enormous creatures.
- Some whales are only 10 to 15 feet long.

- 2 Whales look a lot like fish. However, whales differ from fish in many ways. For example, the tail fin of a fish is up and down; the tail fin of a whale is sideways. Fish breathe through gills. Whales have lungs and must come to the surface from time to time to breathe. Whales can hold their breath for a very long time. The sperm whale can hold its breath for longer than an hour.

- Whales and fish do not share similar breathing patterns.
- Whales can hold their breath for about an hour.
- Whales might look a lot like fish, but the two are very different.

- 3 Baleen whales have no teeth. Instead, they have hundreds of thin plates in their mouth. They use these plates to strain out food from the water. Their diet consists of tiny animals. Humpback whales are baleen whales. Toothed whales, such as blue whales have teeth. Toothed whales eat foods such as fish, cuttlefish, and squid.

- Whales can be divided into two groups—baleen and toothed.
- Baleen whales have plates in their mouths; toothed whales do not.
- Toothed whales use their teeth to chew their food.

Name _____

A series is a list of three or more items in a sentence.
Use a comma (,) to separate each item in a series.

Abby likes bread, butter, and jam.

Pedro likes fried eggs, hash browns, and fresh fruit.

They will go to the store, buy food, and cook breakfast.

Each sentence has a series. Add commas where they are needed.

1. This week, the kids have to make breakfast lunch and dinner every day.
2. We can make a salad with lettuce tomatoes and onions.
3. We can make a pizza with cheese sauce and pepperoni.
4. Karla Jack and Tran have fun in the kitchen.
5. They make pancakes on Monday Wednesday and Friday.
6. Kai sets the table pours the water and brings out the food.
7. Emma washes dries and puts away the dishes.
8. The parents smile hug the children and say, "Thank you!"

Capitalization and end punctuation help show where one sentence ends and the next one begins. Whenever you write, proofread to make sure each sentence begins with a capital letter and ends correctly. Here's an example of how to mark the letters that should be capitalized.

have you ever heard of a Goliath birdeater? it is the world's largest spider. this giant tarantula can grow to 11 inches in length and weigh about 6 ounces. now that's a big spider! although it is called a birdeater, it usually eats earthworms. occasionally it will also eat small insects. these spiders are mostly found in rain forests.

Read the passage below. It is about another amazing animal, but it is not so easy to read because the writer forgot to add end punctuation and use capital letters at the beginning of sentences. Proofread the passage. Mark the letters that should be capitals with the capital letter symbol. Put the correct punctuation marks at the ends of sentences. Then, reread the passage.

think about the fastest car you've ever seen in the Indianapolis 500 race that's about how fast a peregrine falcon dives it can actually reach speeds of over 200 miles an hour while diving how incredibly fast they are peregrine falcons are also very powerful birds did you know that they can catch and kill their prey in the air using their sharp claws what's really amazing is that peregrine falcons live in both the country and the city keep on the lookout if you're ever in New York City believe it or not, it is home to several falcons

Is That a Fact?

What is the difference between a fact and an opinion? A **fact** can be checked or proven. An **opinion** is what someone believes or feels about something. An **opinion** cannot be proven.

Read each sentence. Write *F* next to each fact. Write *O* next to each opinion.

- _____ 1 Everyone in the world thinks chocolate makes the best candy.
- _____ 2 In Switzerland, the average person eats about 19 pounds of chocolate in a year.
- _____ 3 That means the Swiss eat about 164 million pounds of chocolate annually.
- _____ 4 I think Americans eat more chocolate than that.
- _____ 5 People also use chocolate to make drinks and to flavor recipes.
- _____ 6 There's nothing better than a chocolate doughnut with chocolate glaze.

Look at the pictures. Write two facts and two opinions about each snack food. Use clue words such as *think*, *best*, *believe*, *like*, and *dislike* to signal an opinion.

1 Fact: _____

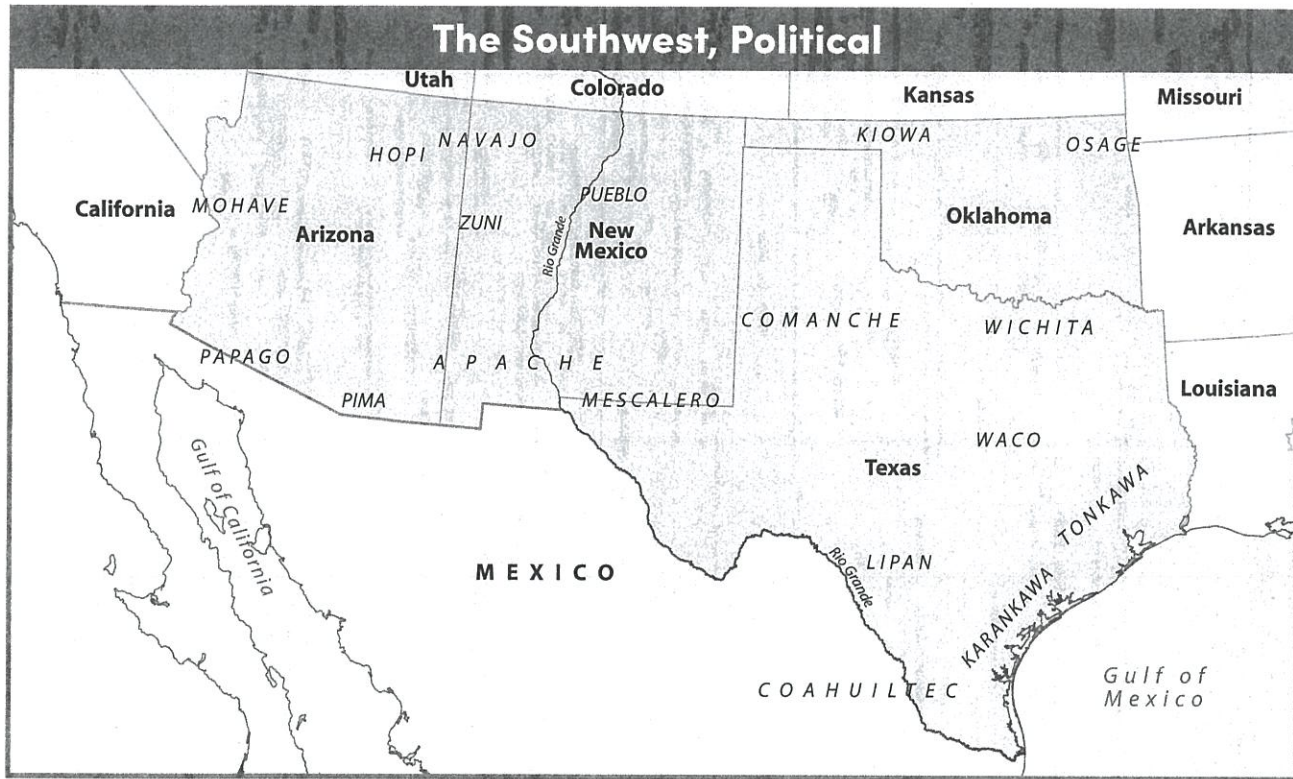

Opinion: _____

2 Fact: _____

Opinion: _____

Native Americans in the Southwest

Before Europeans came to America, much of the Southwest region was inhabited by Native Americans. The map on this page shows where major groups lived in the past.

Use the map on this page to answer the questions.

1 In which present-day states did the Navajo live? _____

2 What are three Native American groups that lived in what is now Texas?

3 Other than the Apache, name two groups that lived near the Rio Grande.

Learn more about one Native American culture. Make a collage to show their traditional way of life.

Zapped!

Read the article and answer the questions.

Getting struck by lightning is a serious thing. A bolt of lightning can contain enough volts of electricity to flash on all the lights of a medium-sized town. If you were struck by a bolt of lightning, there are many harmful things that could happen. The lightning's heat would instantly turn your sweat to steam and that steam could burn your skin. The electricity could race through your eyes and ears, blurring your vision and bursting your eardrums. The explosive force of the lightning could break your bones. Your muscles, including your heart, could stop working.

Each year, about 50 people in United States die from lightning strikes. Hundreds more are struck, but the strike is not fatal, or deadly. To avoid being struck by lightning, there are some things you should do. You should stay inside during a thunderstorm. You should avoid contact with metal pipes. You should also stay away from computers and other electrical equipment because if lightning strikes your house, it can travel through metal and wires.

1 What is the main idea of this article?

- Sometimes lightning is not deadly.
- Sweat can turn to steam.
- Lightning is powerful and can be dangerous.

2 List three things that being struck by lightning can do to a person.

3 About how many people in America are killed by lightning each year?

4 What are some things you should do during a thunderstorm to avoid lightning?

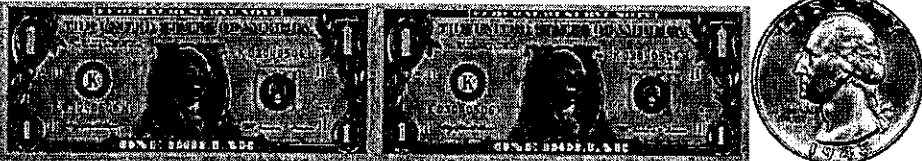

5 Another word for *deadly* is:

- bursting
- harmful
- fatal

Name: _____

Date: _____

Counting Bills and Coins

1		<hr/> <hr/>
2		<hr/> <hr/>

Decimal Place Value with Money

Instructions: Count the coins. Write their value on the correct space on the place value chart. Then write the number in proper decimal form.

Place Value		
Dollars \$	Cents ¢	
One Dollar 	Dime 	Penny 
Ones	Tenths	Hundredths

_____ . _____ ¢

Place Value		
Dollars \$	Cents ¢	
One Dollar 	Dime 	Penny 
Ones	Tenths	Hundredths

_____ . _____ ¢

Place Value		
Dollars \$	Cents ¢	
One Dollar 	Dime 	Penny 
Ones	Tenths	Hundredths

_____ . _____ ¢

Place Value		
Dollars \$	Cents ¢	
One Dollar 	Dime 	Penny 
Ones	Tenths	Hundredths

_____ . _____ ¢

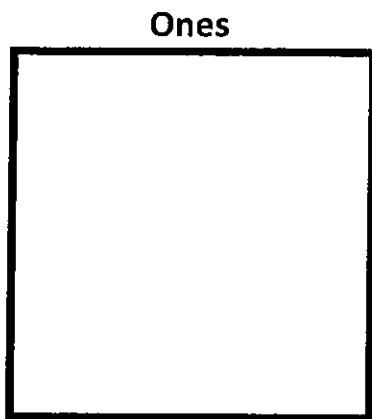

Decimal Place Value with Money

Count it.

Shade it.

Write it.

Place Value		
Dollars \$	Cents ¢	
One Dollar 	Dime 	Penny
Ones	Tenths	Hundredths

Numbers

Write the amount of money you counted in correct space, then circle the correct sign that goes with it.

\$ _____ . _____ ¢

Words

Complete the sentence using numbers written in word form.

The coins total to _____
 _____ (cents/dollars).

SPRINGTIME SUBTRACTION

Solve each subtraction problem. Regroup when you need to.

A.
$$\begin{array}{r} 671 \\ -298 \\ \hline \end{array}$$

B.
$$\begin{array}{r} 330 \\ -126 \\ \hline \end{array}$$

C.
$$\begin{array}{r} 871 \\ -459 \\ \hline \end{array}$$

D.
$$\begin{array}{r} 584 \\ -296 \\ \hline \end{array}$$

E.
$$\begin{array}{r} 590 \\ -185 \\ \hline \end{array}$$

F.
$$\begin{array}{r} 946 \\ -488 \\ \hline \end{array}$$

G.
$$\begin{array}{r} 684 \\ -396 \\ \hline \end{array}$$

H.
$$\begin{array}{r} 893 \\ -221 \\ \hline \end{array}$$

I.
$$\begin{array}{r} 653 \\ -599 \\ \hline \end{array}$$

J.
$$\begin{array}{r} 397 \\ -169 \\ \hline \end{array}$$

K.
$$\begin{array}{r} 653 \\ -189 \\ \hline \end{array}$$

L.
$$\begin{array}{r} 778 \\ -286 \\ \hline \end{array}$$

M.
$$\begin{array}{r} 569 \\ -386 \\ \hline \end{array}$$

N.
$$\begin{array}{r} 487 \\ -186 \\ \hline \end{array}$$

O.
$$\begin{array}{r} 386 \\ -210 \\ \hline \end{array}$$

COMPARING NUMBERS

Solve each multiplication problem. Determine which sign to use. $<$, $>$, or $=$. Write the correct sign to compare the answers in the middle circle.
